Company type	**Public federal university funded by the Federal Government of Nigeria**
Employees	**3000+**
Subsidiary of	**Federal Government of Nigeria**

About

The Federal University of Technology, Akure (FUTA) is a federal university in Akure, Ondo State, established in 1981 by the Federal Government of Nigeria. It has grown into one of the country's leading universities of technology, with academic work organized around engineering, science, and applied research rather than a broad liberal arts curriculum.

FUTA's identity is anchored in its specialist mandate: it was created to strengthen Nigeria's capacity in science and technology at a time when the country needed more technically trained graduates to support industrial growth. That purpose still shapes the university's academic structure today, with programmes concentrated in fields such as engineering, computing, environmental science, agriculture, and related applied disciplines. The university's public profile also emphasizes its role as a top-ranking technology institution with multiple schools and departments.

A defining feature of FUTA is that its undergraduate offerings are structured around technology-oriented degrees, reflecting its applied focus rather than a generalist university model.

This makes the institution especially relevant to students who want training in practical scientific problem-solving and technical innovation. The university’s academic architecture is designed to produce graduates with the knowledge needed for real-world industrial, engineering, and research environments.[

Over time, FUTA has built a strong reputation through its output in computer science, electrical engineering, civil engineering, food science, and other technical fields. Its graduates contribute to Nigerian industry and, in many cases, to the wider international technology ecosystem. That outcome reflects the university’s original mission: to produce a highly skilled workforce capable of advancing technological development and supporting national progress.

> **To achieve excellence in science and technology education for national development.**
> *Mission statement*

Trust and reputation measures

Trust Score	Profile Strength	Evidence	Status
Not yet rated Needs reviews and evidence	**34/100** Incomplete Profile	**No evidence recorded yet**	**Unclaimed profile**

Brands Trust Score *A reputation measure built from approved reviews and evidence under a published methodology. It is not a measure of how complete a profile is, and payment never changes it.*

Profile Strength *How complete and well maintained the profile is. It does not change the Trust Score.*

Evidence coverage *How much of this profile is backed by recorded sources, and how independent they are.*

Status *No company representative has claimed this profile yet. It is compiled from public sources by Brands.Ng.*
