About

The Polytechnic Ibadan is one of Nigeria's most established public polytechnics, founded on 7 August 1970 as the successor to the former Technical College, Ibadan. Located in Ibadan, Oyo State, it was created to meet the growing demand for technical and vocational education and has since become a major centre for practical, industry-relevant learning.

The institution describes itself as a "citadel of learning" and a centre for academic excellence in Applied Science, Engineering, Environmental Studies, Business, and Communication Studies. Its academic structure is built around six faculties and more than 40 departments, with programmes delivered through both full-time and flexible learning options. The school offers National Diploma and Higher National Diploma programmes, with additional professional and post-HND options in selected fields.

Poly Ibadan's mission is closely tied to producing skilled, innovative, and globally competitive graduates who can contribute to Nigeria's social and economic development. That mission is reflected in its emphasis on hands-on training and middle-level manpower development, which has long been central to the role of polytechnics in Nigeria's education system. The institution also maintains a strong practical orientation through industrial work experience requirements and applied coursework across its departments.

Its programme mix is broad and technical, covering disciplines such as engineering, architecture, building technology, estate management, computer science, applied chemistry, biochemistry, statistics, accountancy, banking and finance, mass communication, and public administration. This range gives it relevance across both technical and business-oriented career paths, making it one of the more comprehensive polytechnics in the country.

Higher education, diploma and higher national diploma programmes, applied science training, engineering education, environmental studies, business studies, and communication studies.

Mission statement

Trust and reputation measures

Trust Score	Profile Strength	Evidence	Status
Not yet rated	**31/100**	**No evidence recorded yet**	**Unclaimed profile**
Needs reviews and evidence	Incomplete Profile		

Brands Trust Score *A reputation measure built from approved reviews and evidence under a published methodology. It is not a measure of how complete a profile is, and payment never changes it.*

Profile Strength *How complete and well maintained the profile is. It does not change the Trust Score.*

Evidence coverage *How much of this profile is backed by recorded sources, and how independent they are.*

Status *No company representative has claimed this profile yet. It is compiled from public sources by Brands.Ng.*
